

1983 HOOD TO COAST RELAY

The second annual 170.7 mile trek from snow to surf is now history. Congratulations and a warm thankyou go out to all of you who participated in this run over demanding terrain. Those of you who had a chance to lift his eyes above his feet and the sweltering pavement observed some of Oregon's most beautiful landscapes. As if the hills were not enough, the high 80 degree temperatures and night running made this a supreme physical and mental challenge.

I hope that all who participated found this to be a challenging adventure and welcome alternative to a summer filled with "flat, fast" 10 K races. Closer and new friendships and a strong sense of group camaradary are the major benefits of this kind of event. Another one is the satisfaction of digging down for and delivering that extra effort when you really hurt because you know nine other people are depending on you.

60 of the 64 registered teams toed the line Saturday morning. 59 teams finished. This represents an incredible growth from last year's inaugural 8 team field. We all felt the congestion of such a large field in the early going. Next year with a LARGE volunteer crew at the exchanges and a staggered start system we should be able to alleviate this problem. I am setting up committees for the planning of next year's race and greatly need help. If you would like to get involved or have suggestions/criticisms of this years race, please drop me a note or call 223-2390.

See you next year,

Bob Foote
